GREEN MEETINGS

HARMONISING COMMERCIAL SUCCESS
WITH ENVIRONMENTAL RESPONSIBILITY

Meet Sustainably, Succeed Responsibly

Lead the way by choosing a sustainable approach for your next event at Regal Hotels International. Our Green Meetings strategy is designed to minimise environmental impact through eco-friendly practices and carbon management.

Powered by the Institute of Sustainability and Technology (IST) and in collaboration with leading organisations dedicated to green practices, we empower impactful solutions for pressing environmental and social challenges through education and innovation.

Our goal is to reduce the ecological footprint of your events, while supporting your business objectives, and adhering to eco-friendly protocols. We offer a comprehensive Green Meetings package that includes:

Carbon Accounting Report

Our Carbon Accounting Report delivers an in-depth analysis of the carbon emissions linked to your events. We evaluate seven key categories according to our Carbon Accounting Methodology, validated by industry standards.

Low-carbon Catering & Cooking

Our culinary philosophy emphasises low-carbon cooking techniques and the use of plant-based ingredients. Our green menu items reduce carbon emissions by up to 25 times compared to traditional menus, delivering delightful cuisine that honours the planet.

Offset Your Impact

We enable event organisers to manage their environmental footprint through carbon credits. Each credit represents the removal or avoidance of one ton of carbon dioxide or its equivalent in greenhouse gases.

Join Us in Going Green - One Meeting at a Time!

As the first hotel in Hong Kong to introduce a MICE mobile app, we offer a dynamic digital platform for event organisers and participants. The intuitive app details event information, features a QR code for streamlined registration, and includes real-time polling to enhance engagement.

With unparalleled hospitality, over 6,500 rooms and 100 versatile event spaces equipped with state-of-the-art facilities, Regal Hotels International is the premier destination for MICE events, where business goals and social impact thrive together.
