- Shiraz, The Lindsay Collection The Summit, Barossa Valley Australia
- Cabernet Sauvignon, Clos Du Val, Napa Valley California
- Shiraz, Mollydooker "The Boxer", McLaren Valley Australia

The 24-day dry aging not only produces unmistakable aromas of nut and butter, it also improves the consistency. During aging the meat becomes mellow, which means that the fibres become softer and the steak tender. In addition, the colour myoglobin is formed, which turns the meat into an attractive dark red. There is up to 30% of the weight loss through dehydration and trimming of the outer crust. This makes the Dry Aged Meat unique and delicious concept.

透過24日乾式熟成讓肉帶出誘人的堅果及牛油香，技術還能讓肉的味道更濃郁；同時，肉的自然酵素會分解肌肉纖維，增加肉質的嫩滑柔軟度，而形成的有色肌紅蛋白使肉變成迷人的紫紅色。熟成過程會令肉因脫水以及切除硬化的外層而減重約三成，這成為了乾式熟肉比其他肉類昂貴的原因。
