TASTE OF 24 SOLAR TERMS

穀雨 4月20日至5月4日 Corn Rain 20 April - 4 May

穀雨是春季最後一個節氣，天氣溫和，雨水增多，濕重天氣容易使人脾胃不適，飲食應以健脾、化濕、清熱為原則。

Corn Rain, as the last solar term of spring, brings forth mild weather and increased rainfall. The heightened dampness can lead to discomfort in the spleen and stomach. Dietary choices should emphasise on nurturing the spleen, eliminating dampness and clearing body heat.
